The Practice commissions the Out of Hours cover from Local Care Direct and NHS 111.

### **Aims and Objectives**

We are a GP practice providing general medical services to patients at the location detailed above.

The Practice will manage patients who are ill or believe themselves to be ill, with conditions from which recovery is generally expected, for the duration of that condition, including relevant promotion, advice and referral as appropriate, reflecting patient choice wherever practicable, general management of patients who are terminally ill and management of chronic disease in the manner determined by the Practice, in discussion with the patient.

The Practice will achieve the above by:

- providing good access to appointments for patients.
- offering home visits for those unable to attend the surgery.
- treating and providing advice to patients, referring them on as appropriate and involving them in discussions about their care, supporting their needs and giving them choice where possible.
- managing patients with chronic diseases through clinics and on-going treatment / monitoring.
- promoting self care and healthy living.
- keeping information safe and secure and maintaining confidentiality at all times.
- encouraging feed-back from patients and ensure they know how to make a complaint.
- working with other organisations to ensure patient care is integrated
- providing a safe environment for patients and staff.
- supporting staff to ensure they have the right skills for the job.

### **Services provided at the Practice**
